

# Human Intelligence Enhanced by Artificial Intelligence

## CardioCare

Digital Health Platform

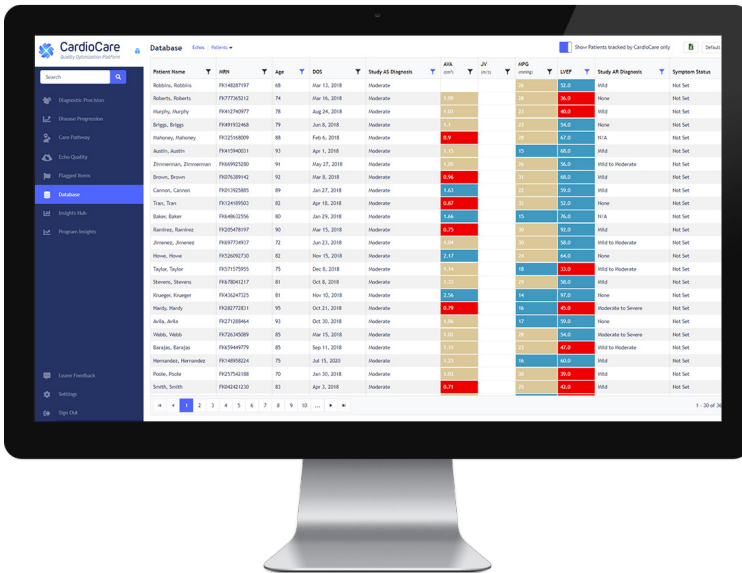

A REVOLUTION IN CARDIOVASCULAR IDENTIFICATION AND MANAGEMENT

Do you spend hours looking through thousands of records for patients who may be eligible for clinical trials?

The CardioCare platform applies proprietary artificial intelligence algorithms to a hospital's structural heart patient population to identify patients potentially eligible for clinical trials and receive life-saving therapy.

Curated patient lists at your fingertips!

Receive an automated list, refreshed daily, of patients with mAS, sMR, sTR, and sAR who could be a candidate for clinical trials.
